

Manager III, Land Development

\$63,411 – \$115,901

**Montgomery County Department of
Permitting Services, Rockville Md.**

Closing Date 10-13-2012

Job Description

Employee will be responsible for directing programs related to sediment control, stormwater management, floodplain management and special protection areas to assure client satisfaction and regulatory compliance. Duties include: managing the design, planning, implementation, evaluation and modification of permitting activities involving the review and approval of engineering plans for compliance with applicable engineering and horticultural standards, codes, and applicable laws/procedures; developing and disseminating goals and priorities; working with the Division Chief on budgetary and other administrative matters; meeting with builders, developers, architects, engineers, elected officials, and community/civic leaders to interpret regulatory requirements, resolve disputes, and provide necessary liaison; testifying at hearings and court sessions; providing advice, guidance, and recommendations designed to elucidate and support divisional programs and regulations in written and verbal communication; and modifying existing programs and creating new programs in response to changes in federal, state, and local laws and regulations and program requirements.

Minimum Qualifications

Experience:

Five (5) years of progressively responsible professional experience in sediment control, stormwater management, or floodplain management.

Education:

Graduation from an accredited college or university with a Bachelor's Degree.

Equivalency:

An equivalent combination of education and experience may be substituted

All resume submissions must address the preferred criteria for the position which are located in the full advertisement.
